Join us for a fun, one hour backroad drive though the South Bay hills. Our drive will end at the historic Hayes Mansion in San Jose, where we'll have brunch. Once a lavish private estate, the Hayes Mansion stands as one of the South Bay's most impressive and distinctive historical structures. Surrounded by lush, emerald green lawns, accented with gardens of vibrant, colorful flowers and guarded by towering palm trees, the 100-year old estate has been refurbished, upgraded and transformed into a luxurious hotel, conference center, resort and spa. Steeped in tradition and rich in history, the mansion provides visitors with an extraordinary experience. Get your snake out of winter hibernation and join us for this Spring tour.
